Md Faizan Khan

Full Stack Web Developer, DevOps Engineer

"Hello! 👋 I'm an enthusiastic coder and a second-year Computer Science student passionate about crafting flawless websites. As a full-stack web developer, I ensure both aesthetics and functionality are top-notch. I'm not just about code; I'm a DevOps engineer, guaranteeing security and smooth operation. What sets me apart? My dedication to the tech community through active open-source contributions. Let's discuss how I can elevate your projects with innovation and efficiency. Together, we'll bring your digital visions to life! 🚀"
